

Titan the Robot.

The West Mid show is delighted to have secured the services of Titan the robot for this years show on the 21st and 22nd of June 2008.

Commercial Director Gary Tudor said "we are delighted to have secured this major attraction for the West Mid Show and this continues our policy of delivering the UKs leading attractions to our many thousands of visitors"

This is his first ever appearance in Shrewsbury and his first appearance at an Agricultural show in Shropshire"

"Visitors will be able to see him mingle with the crowds 3 times per day performing for 30 minutes in each show" He will be travelling around the showground and may also appear in a marquee!"

Titan has travelled the world and entertained many thousands of people in his own inimitable style. He has travelled the globe as far as China and Dubai. He has the same reaction wherever he goes.

The now infamous Titan Robot Show is a mix of heart stopping, adrenaline pumping action and lung bursting laughs that will appeal to all ages.

The huge robot is a guaranteed show stopper, and has become a breathtaking phenomena, regularly attracting audiences of up to 2000 people, stopping traffic and bring town centres to a standstill.

Titan captivates people of all ages and from any walk of life, if you see him you will have to stop and watch the show and we are sure you will come back and watch him again and again.

Many visitors will not believe what they are seeing and I am sure that once seen he will never be forgotten.

Titan's vital stats.

Height: 8ft

Time to develop: 4 years

Cost to build £100,000

The company behind Titan.

Cyberstein Robots Ltd is a company unlike any other who specialize in the creation development and performance of unique entertainment concepts. Cyberstein was founded by Nik Fielding in 1999 who has collaborated his 20 years experience in creating these amazing robots.

They have now been performing on the show circuit for just under 10 years and have worked at over 3000 events throughout the world and have created what can only be described as a new dimension to the outside event industry.

Continually pushing the limits of technical design and using the latest cutting edge technology to bring to you a breathtaking piece of theatrical engineering Cybersteins giant robots have built up a reputation through out the UK and across the globe for producing unforgettable shows.
